## Letter from the Chairman

gentoo

Dear Shareholders.

As we reflect on the past year, I am pleased to report that 2024 was a transformative period for our company. We successfully executed a strategic split, allowing us to sharpen our focus and build a strong foundation for future expansion.

Despite the inevitable distractions associated with this streamlining of our business, we continued to grow and delivered record results each quarter, consistently outperforming our competitors. The split has positioned us well to capitalize on growth opportunities and enhance our market presence.

Looking ahead to 2025, the dust has settled, and our primary focus will be on expanding our business through organic growth, forging new partnerships and exploring strategic acquisitions.

The gambling affiliate industry continues to evolve, and we are committed to staying ahead by identifying and seizing opportunities that drive sustainable long-term

value. Our team remains dedicated to strengthening our market position while ensuring operational excellence across our businesses.

In addition to our expansion plans, we are deeply committed to creating shareholder value through strategic capital allocation. As a stand-alone entity, Gentoo is a highly cash generative business and we will actively explore opportunities such as debt refinancing, share buybacks and other financial mechanisms that enhance our capital structure and maximize shareholder returns. These efforts will be carefully balanced to support both growth initiatives and shareholder interests.

We have a clear vision of where we want to be and how to achieve it. In 2025, we will place significant emphasis on articulating our strategy to both existing shareholders and potential investors. Transparency and communication remain core priorities as we drive our business forward and solidify our reputation as a leader in the industry.

I would like to extend my gratitude to our dedicated team, partners, and shareholders for their continued support. The opportunities ahead are vast, and I am confident that with our focused strategy and disciplined execution, we will achieve new heights in 2025 and beyond.

Sincerely,

1/20

# Letter from the CEO

Dear Shareholders.

I am pleased to present our fourth quarterly report for 2024. We close the year with another record-breaking quarter, marking the 16th consecutive period of all-time high revenue for Gentoo Media. This sustained growth demonstrates the strength of our strategy and commitment to delivering long-term value to our partners and shareholders.

A defining milestone in the final quarter was our strategic transition to a fully affiliate-focused business, following the divestment of our Platform & Sportsbook operations at the end of Q3 2024. This transformative step enhances and strengthens our ability to innovate and expand within the affiliate sector.

There has been a considerable amount of work related to the split, and it has been a very eventful year in the industry where both challenges and opportunities have never been greater, making me even more proud of the performance we have been able to deliver this quater.

Our diversification strategy continues to yield strong results, and in Q4, Gentoo Media achieved record revenue of EUR 35.9 million, a year-on-year increase of 38%. EBITDA before special items reached EUR 14.3

million, up 31% year-over-year, with an EBITDA margin of 40%. Higher marketing spend during the quarter supported revenue expansion but resulted in a slightly lower-than-usual EBITDA margin.

The acquisition of Titan Inc., completed last quarter, has already delivered material cost savings and bolstered our value chain. Moreover, Titan Inc. has been generating material revenue for the company by leveraging synergies through Gentoo Media's industry network. We are excited to further integrate Titan into our operations in early 2025 to reap additional cost savings and to grow the business further.

Additionally, KaFe Rocks and AskGamblers.com, acquired in 2023, continue to thrive. AskGamblers.com stands out as a flagship asset within our portfolio, with enormous potential for growth as we add new segments and features to the website. Following a period of analysis and planning, we are also preparing a significant revamp of Casinomeister.com, which holds exciting potential for growth. It remains a focal point for the business to reestablish Casinotopsonline.com as a flagship website in our portfolio.

Looking ahead, we remain focused on accelerating organic growth while pursuing strategic acquisitions that strengthen our competitive position.

As we have navigated the transition up to and after the split, our 2024 financials naturally reflect certain one-time factors. However, as we move into 2025, we expect a much clearer financial picture, providing investors with greater visibility into the strong cash flow characteristics of our business - an aspect that I and management are particularly excited about.

I extend my heartfelt gratitude to our exceptional team at Gentoo Media. Your dedication, resilience, and hard work have been instrumental in driving our success. I also want to thank our partners for their continued collaboration and commitment. Lastly, I am deeply grateful to our investors and board of directors for their trust and support, which remain critical to our ongoing success.

Sincerely,

Jonas Warrer | Chief Executive Officer Gentoo Media

# Summary and outlook

#### Split of the company

In September 2024, the company changed its name from Gaming Innovation Group Inc. to Gentoo Media Inc., reflecting its ongoing commitment to growing the business and building on its successful track record as a leading affiliate in the iGaming industry.

On 30 September 2024, the company effected its split into two independently listed entities. Gentoo Media continues as an independent public company and a pure media business, advancing the business's journey as a market-leading affiliate in the iGaming industry.

The platform business was distributed to the shareholders and continued as an independent B2B company named GiG Software PLC, providing its proprietary platform and sportsbook technology across the global iGaming sector. The purpose of the split was to optimise growth opportunities and ensure each business could benefit from the strategic and financial flexibility of its distinctive business models.

Our 2024 financials naturally reflect certain one-time factors associated with the company's split. As we move beyond this transition, these costs will diminish, allowing Gentoo Media's management to present a much clearer picture of the business in 2025 - particularly its strong

cash flow generation, which remains a key driver of the company's long-term success.

#### **Business summary**

Revenues in Gentoo Media were at an all-time high of EUR 35.9 (26.1) million in the fourth quarter of 2024, a 38% increase YoY, of which 18% organic. EBITDA before special items amounted to EUR 14.3 million with a margin of 40%. The EBITDA margin was impacted by seasonally high marketing expenses in the quarter.

For the full year Gentoo Media ended at EUR 124.5 (88.6) million, a 41% increase YoY, of which 17% organic. EBITDA before special items ended at EUR 57.2 million with an EBITDA margin of 46%.

The company's focus on higher value markets continued to yield results in the fourth quarter of 2024, with value of deposits for the player base up 27% YoY. The planned reduction in intake of low-value players continued, resulting in a player intake of 112,400 (137,600) in the quarter, down 18% YoY. Similar to previous quarters, the majority of players generated were on deals with a revenue-share component. The total value of deposits, which represent the amount of money deposited by players we have referred to operators' websites, also increased this quarter, reaching EUR 200 million.

Q4 2024 - Gentoo Media Interim Report \_\_\_\_\_\_ Summary and outlook - 6

#### Outlook & guidance

The fourth quarter of 2024 was another strong one for Gentoo Media, marking the fourth consecutive year of quarter-on-quarter revenue growth. This success is driven by a diversified earnings strategy across markets, customer segments, and websites. The major acquisitions of AskGamblers.com and KaFe Rocks continue to perform well, with clear strategies for further growth and development.

The fourth quarter had two Google core updates, with no notable impact on Gentoo Media's portfolio of websites. One of the larger sites in the portfolio, targeting a specific market, saw a notable positive spike in rankings. Two smaller websites in the portfolio were hit negatively. Combined the impact was neutral.

Websites that were negatively impacted by previous updates continue on a positive trajectory and Gentoo Media's proven track record of reversing losses in rankings in Google, and other search engines, continues to be an important demonstration of a website's ability to generate significant revenue in the future.

The business has yet to realise a turn-around for Casinotopsonline.com, which was a strong revenue and player intake driver in 2023 and earlier years. It remains a focal point in the organisation to realise said turn-around and a dedicated team has worked throughout 2024 to make this a reality. This work will also continue in 2025 until success is achieved.

The integration of Titan Inc. from last quarter has shown very positive results in the quarter. Titan Inc. continues to improve the value chain and is providing significant cost savings in SEO and content. Moreover, using Gentoo Media's industry network, Titan Inc. was able to increase sales of their services within SEO and content and generate material revenue for the business. Gentoo Media will seek to leverage these synergies further in 2025.

This year, the company invested heavily in Gentoo Media's next-gen proprietary media and martech platform, set to launch in 2025 with an expected revenue impact following.

Several new initiatives were launched in Q4 2024, with positive revenue contribution in the quarter.

The profitability of these initiatives is being assessed in the new year, to ensure that Gentoo Media remains focused on higher value activities. This quarter saw a higher-than-usual proportion of earnings from CPA and listing fees. Looking ahead, we expect our revenue share distribution to remain consistent with historical trends over the longer term.

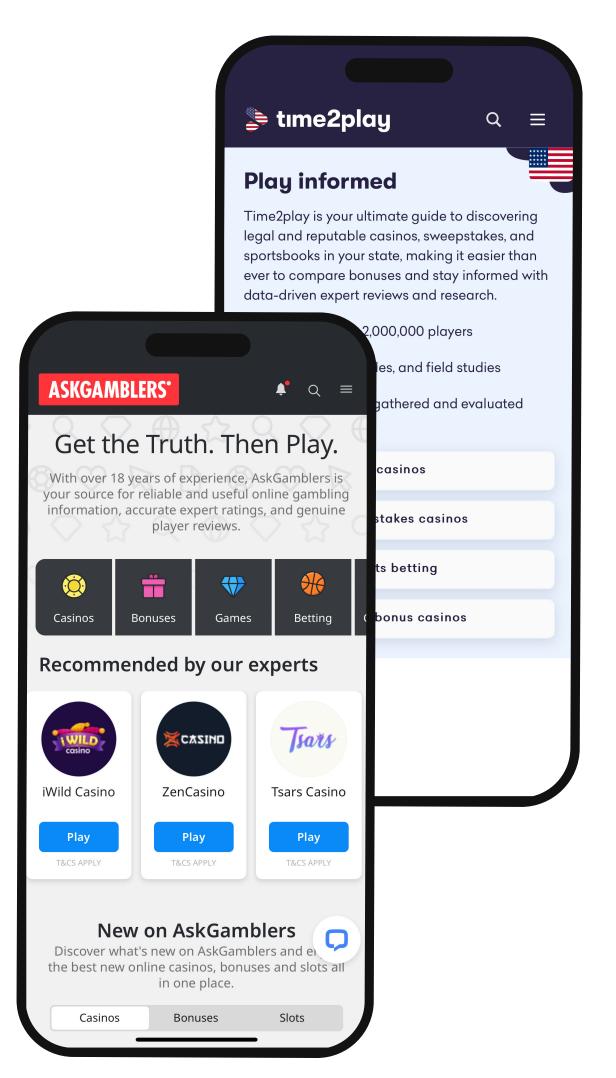

Market regulation in Brazil negatively affected Q4 earnings and this impact is expected to continue into the start of 2025. While Brazil remains a promising long-term market, the new regulations will likely pose short-term challenges as operators adapt.

Since the split in the third quarter, Gentoo Media

has been functioning as a standalone entity and the transition to having all supporting functions inhouse has been successful. It is a focus point for the first half of 2025 to optimise these functions, following the transition to being a stand-alone business after the split from Platform and Sportsbook.

With the fourth quarter and 2024 ending, Gentoo
Media can report a year-end revenue at EUR 124.5
million with an EBITDA margin of 46%. Gentoo Media has
established itself as a major player in a global industry
but still only has a small market share, presenting
substantial growth opportunities

The company expect double-digit revenue growth for 2025, and intend to provide a more specific guidance in the Q12025 presentation. The management and the board of directors of Gentoo Media are excited by the opportunities that lie ahead for the company in 2025 and beyond.

Q4 2024 - Gentoo Media Interim Report \_\_\_\_\_\_ Summary and outlook - 7

# Operational review

Gentoo Media continued its strong growth trajectory in the fourth quarter of 2024, achieving a new all-time high revenue of EUR 35.9 million. This marks the 16th consecutive quarter of record revenue, reflecting sustained business momentum. Year-over-year revenue increased by 38%, with a quarter-over-quarter growth of 18% from Q3 2024.

# Q4 2024 marks the 16th consecutive quarter of record revenue for Gentoo Media

Player intake for the quarter totaled 112,400, reflecting an 18% year-over-year decline. This decrease aligns with the company's strategic shift in 2024 to focus on higher-value markets, leading to a more pronounced reduction in players from lower-value segments.

In the fourth quarter of 2024, Publishing remained focused on restoring search engine rankings for its flagship site, Casinotopsonline.com. The website has undergone notable enhancements, with improved performance, quality refinements, and the introduction of new features that elevate user experience and engagement. These efforts led to a 33% quarter-over-quarter increase in organic traffic, with ongoing

product improvements aimed at driving sustained growth going forward. Although the website has been improving in performance, a full turn-around to previous performance levels has yet to be achieved.

Time2play.com experienced a decline in traffic and revenue from the US following the impact of the Google core update back in August. In response, targeted initiatives were intensified in the quarter to regain lost rankings. On the other hand, this decline was largely offset by the continued success of WSN.com, which recorded a 35% quarter-over-quarter increase in revenue, further strengthening its position in the US market.

# WSN.com showed continued success, recording a 35% QoQ increase in revenue

Following the acquisition of Casinomeister.com in July 2024, the site has shown strong performance, with organic traffic increasing by 19% quarter-over-quarter. With several technical and commercial improvements underway, Gentoo Media anticipates further growth from this asset in 2025.

Additionally, the fourth quarter marked a significant milestone for AskGamblers.com, which officially launched in the regulated US market. Efforts to expand its sports betting segment progressed positively, positioning the website for further development and market penetration.

# A significant milestone for AskGamblers.com, which officially launched in the US

Google released two core updates in the fourth quarter as well as a spam update targeting low-quality content and spammy link building. Gentoo Media's flagship websites remained stable with no significant ranking fluctuations. One larger country-specific website benefited from the core updates, while two smaller sites were affected negatively. Overall the updates had a neutral impact on the company's portfolio..

Several KaFe Rocks websites were successfully migrated to the main platform in the quarter and further steps were taken to cater for the planned migration of AskGamblers.com.

The migrations improve scalability and efficiency and pave the way for a more streamlined infrastructure, ensuring a robust foundation for future development.

Significant progress was made for our next-generation solution for WordPress-based websites. This advanced platform is designed to offer greater flexibility, performance, and scalability, which will simplify and accelerate website deployment while maintaining a high standard of design, functionality and overall quality.

# Gentoo remains committed to innovation and continious improvement to remain competative and agile

Additionally, we continued our commitment to improving website performance across our portfolio, implementing modular updates that contribute to better speed and user satisfaction. Gentoo remains committed to innovation and continuous improvement, ensuring that our media platforms and websites remain competitive and well-positioned for future growth.

Q42024 - Gentoo Media Interim Report \_\_\_\_\_\_\_ Operational review - 8

The Paid division delivered a strong performance in the fourth quarter of 2024, driven by strategic efficiency improvements and disciplined cost management. Paid revenue grew by 13% year-over-year and 33% quarterover-quarter, reflecting continued optimisation across PPC, display, and social media campaigns, as well as a sharper focus on high-value traffic sources. This growth highlights the division's ability to scale effectively while maintaining rigorous performance benchmarks across all marketing channels.

Enhanced automation and a more streamlined operational structure further improved efficiency and productivity within Paid, ensuring best-in-class execution across paid marketing initiatives. These strategic advancements, coupled with a disciplined approach to resource allocation, contributed to increased profitability in the fourth quarter.

Gentoo Media's marketing compliance solution, Sitebee (previously GiG Comply), renewed five existing clients in the fourth quarter.

#### **Revenues and EBITDA**

Revenues for Gentoo Media were EUR 35.9 (26.1) million in the fourth quarter of 2024, a 38% increase year-on-year, whereof 18% were organic.

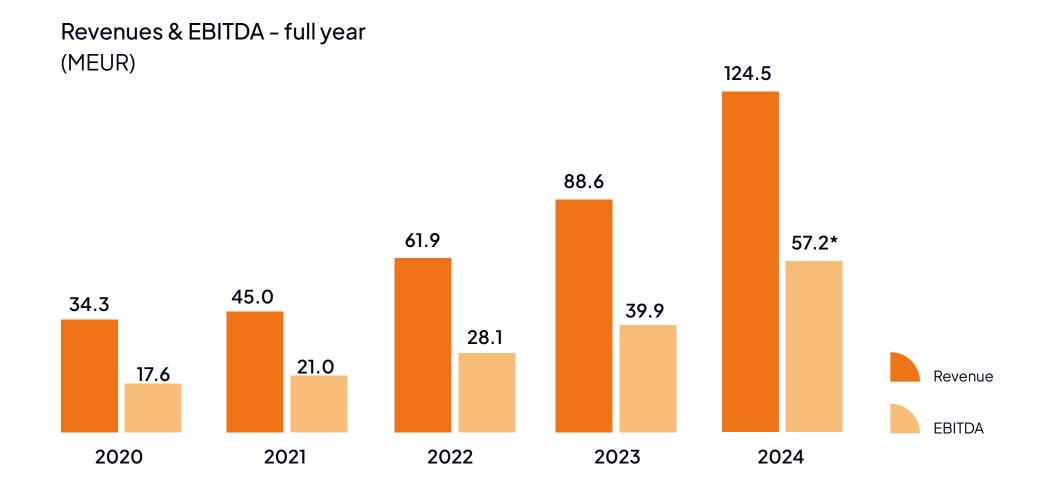

Paid Media represented 23% (27%) of quarterly revenues. 51% (60%) of revenues in the fourth quarter of 2024 derived from revenue share agreements, 18% (8%) from CPA (Cost Per Acquisition) and 31% (33%) from listing fees and other services.

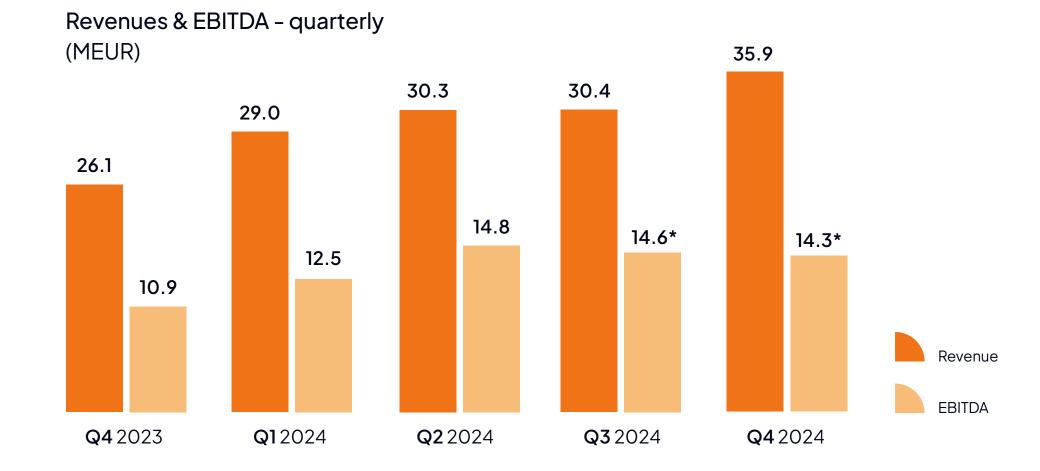

The increase in listing fees and other services is driven by the acquisition of Titan Inc. and a strong sales push in the quarter. Looking ahead, the revenue share distribution is expected to remain aligned with historical trends over the long term

The company continues referring players to revenue share agreements to secure recurring revenue streams. In the fourth quarter of 2024, marketing expenses amounted to EUR 10.1 million, marking a 19% yearover-year increase from EUR 8.5 million in the fourth quarter of 2023.

For the full year 2024, 471,400 (471,400) new FTDs were referred to operators, in line with the previous year. The value of deposits for the player base was up 39% from 2023 ending at EUR 767 million.

Revenue from non-top five websites grew by 55% year-over-year, while revenue from the top five websites were in line with the fourth quarter of 2023, reflecting balanced growth across both high-performing and emerging assets.

Additionally, revenue from the Americas and Europe grew by 37% year-over-year, underscoring the strategic importance of these regions. Both markets remain pivotal to Gentoo Media's growth strategy, and we will continue to prioritise them as key drivers of future expansion.

Looking ahead, Publishing will continue its efforts to enhance platform performance, improve search visibility, and seize growth opportunities across its core assets. Targeted investments in key emerging markets will also be an attention point.

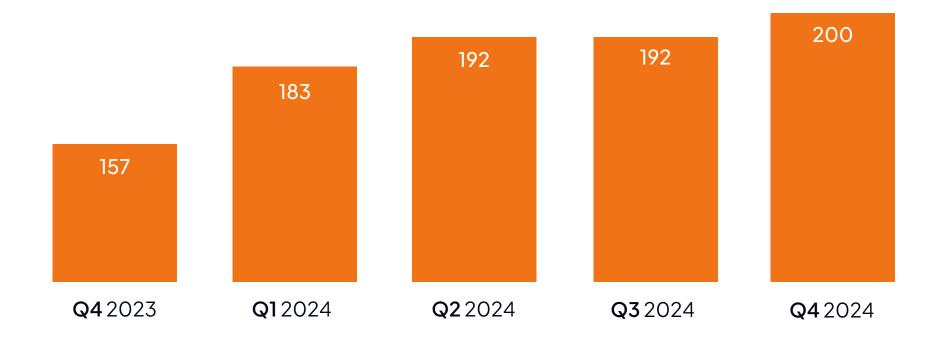

Paid remains focused on data-driven media buying, ongoing optimisation of bidding strategies, and further advancements in automation, ensuring that Gentoo Media is well-positioned to deliver strong returns and maintain margin resilience in the coming quarters.

Gentoo Media is further committed to continuous innovation and the ongoing improvement of its products and technology. This will ensure that the company's platforms remain competitive and strategically aligned with future growth objectives.

The DMA is currently being reviewed by the auditors.

#### 2. Basis of preparation

These unaudited condensed financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union. The condensed consolidated financial statements report the periods ended 31 December 2024 and 2023 of Gentoo Media Inc. and subsidiaries and have been prepared in conformity with IAS 34. The condensed consolidated financial statements for the

periods ended 31 December 2024 and 2023 have not been audited by the company's auditors.

The company's condensed consolidated financial statements are presented in Euro (EUR), which is the presentation and functional currency of the company.

The functional currencies of its subsidiaries are the United States dollar, the Euro, British Pounds, Norwegian and Danish Kroners and the Serbian Dinar which are translated into EUR at monthly average rates for revenues and expenses and at month end rates for assets and liabilities. Equity accounts are translated at historical rates. Exchange differences on translation of foreign operations are shown as a separate component of stockholders' equity (deficit) and reflected as other comprehensive income (loss) on the condensed consolidated statement of comprehensive income (loss).

The condensed consolidated financial statements of the company as at and for the periods ended

31 December 2024 and 2023 are comprised of its subsidiary Plc and Plc's related accounting basis subsidiaries.

As of 31 December 2024, current assets amounted to EUR 37.8 million (2023: EUR 34.0 million), and current liabilities amounted to EUR 82.4 million (2023: EUR 37.5 million). Current liabilities include EUR 33.2 million in deferred considerations related to acquisitions in 2023 and 2024. The company has a negative equity as of 31 December 2024. The equity is in deficit as a result of past events and the negative development within discontinuing operations.

Based on the company's recent development and positive cash flow from operations, the directors are confident about the company's ability to successfully generate sufficient cash flow to be able to pay the deferred considerations when due. The directors acknowledge that the judgements made as part of the going concern assessment are subject to a degree of underlying uncertainty and recognises that the future cash flow from operations are contingent on external market factors, which may be beyond the company's control. On this basis, the directors consider the going concern assumption in the preparation of the financial statements to be appropriate as at the date of authorisation for issue of the Q4 2024 Interim Report.

Standards, Interpretations and Amendments to Published Standards that are not yet Effective in 2024

In 2024, there are certain new standards, amendments and interpretations to existing standards that are mandatory for the company's accounting periods beginning 1 January 2024. The adoption of these revisions to the requirements of IFRS as adopted by the EU did not result in substantial changes to the company's accounting policies.

Voluntary changes in accounting policies

Application of the practical expedient to certain short-term leases.

The Group has changed its accounting policy for the recognition of short-term leases with effect from this financial period; prior to this change, the Group had applied the short-term practical expedient to leases of all classes of underlying assets. The Group is no longer applying the practical expedient (which is available on a class-by-class basis) to leases of office premises, but it continues to apply it to leases of other classes of underlying assets.

This change in accounting policy was adopted in order to have one consistent model for the classification and presentation of the Group's rights and obligations arising from all its leases of office premises. The Group did not have any short-term lease arrangements for office premises prior to the fourth quarter of 2024, and consequently the financial information for prior reported periods is not restated. Right-of-use assets

and lease liabilities amounting to EUR 393,737 were initially recognised in 2024 as a result of the change in accounting policy, with amortisation charges and interest cost of EUR 130,761 and EUR 5,421 respectively being recognised in profit or loss. Had the Group not changed its accounting policy, short-term lease arrangements for office premises would not have been recognised in the statement of financial position, and lease rental costs of EUR 0.15m would have been recognised in profit or loss in place of the amortisation and interest charges.

Amortisation of transaction costs incurred upon originating debt

The Group has also changed its accounting policy for the amortisation of transaction costs incurred upon originating floating-rate debt instruments.

IFRS 9 is silent on how such transaction costs should be amortised for floating rate instruments; prior to the change in accounting policy, the Group amortised such transactions costs by reference to the interest rate applicable at inception. Following the change in accounting policy, the Group is now amortising transaction costs on floating-rate instruments on a straight-line basis, as this approach is more closely aligned with the reports used by the Group's management in assessing performance.

The Group's borrowings as at 1 January 2023 had a remaining maturity at that date of 18 months.

Management determined that the adoption of the new

policy has had an immaterial effect on the net carrying amount of the liabilities as at that date, as well as on the amounts amortised in the income statement for the year ended 31 December 2023. Consequently, no changes have been made to the Group's consolidated financial statements for the year ended 31 December 2023.

#### 4. Assets held for distribution

The spin-off of Platform & Sportsbook was successfully executed on 30 September 2024, and the activity in Platform & Sportsbook has been reported as discontinuing operation in the profit and loss and balance sheet statement up until 30 September 2024. Previous periods have been restated accordingly for profit and loss statements and balance sheets. The tables show the breakdown of the profit/(loss) from assets held for distribution to owners for the periods ended 31 December 2024 and 2023.

#### 5. Impairment of intangible assets

The company reviews the carrying amounts of its tangible and intangible assets on an annual basis (or more frequently if events or changes in circumstances indicate a potential impairment) to determine if there are any indications that the assets have decreased in value. If any such indications exist, the recoverable amount is set to determine the need to recognise an impairment. When calculating the recoverable amount, future cash flows are discounted to present value using a discount rate before tax. If the recoverable amount is determined to be lower than the carrying amount an impairment is recorded through a charge to the statement of operations. There were no impairments in continuing operations in the periods covered by this interim report.

#### 6. Discontinued operations

Following the acquisition of Sportnco Gaming SAS ("Sportnco") in 2022, the company's own sportsbook has been phased out as a standalone product as Sportnco's sportsbook is the preferred product going forward. Thus, in accordance with IFRS 5, the results from Sports Betting Services are reported as discontinued operations in the company's consolidated financial statements. The table below is the breakdown of the profit/ (loss) from discontinued operations for the periods ended 31 December 2024 and 2023 (see table below).

#### 7. Earning (loss) per share

Basic earnings (loss) per share are calculated by dividing the net income (loss) for the period, plus or minus applicable dividends, by the weighted number of shares outstanding. Diluted earnings (loss) per share utilise the same numerator, but outstanding shares in profitable periods include the dilutive effect of outstanding warrants and options determined by the treasury stock method. As of 31 December 2024, the company had 1,119,600 outstanding options.
